## **VACCINATION CENTRE ON THE COAST**

Central Coast MPs met with members of the Central Coast GP Alliance to discuss the rollout of vaccinations on the Central Coast. The consensus was that the Central Coast needs a mass vaccination centre.

Whilst local GPs are offering vaccinations, waiting lists are already long and the rollout of Pfizer will further add to delay.

GPs are still coping with their normal duties of seeing patients as well as now doing vaccinations.

If we are to ensure our Coast Population is vaccinated to a high level then like the Hunter and Illawarra the Central Coast should have a mass vaccination hub.

The government needs to seriously act on this issue to protect the 330 000 residents of the Central Coast.
